CARA CEPAT MENCARI REFERENSI SCOPUS

Panduan Praktis untuk Dosen, Mahasiswa & Peneliti

Kenapa Banyak Orang Gagal?

Banyak dosen, mahasiswa S2/S3, dan peneliti mengalami masalah yang sama:

- Sudah cari referensi… tapi tidak relevan
- Hasil terlalu banyak dan membingungkan
- Tidak tahu mana jurnal berkualitas (Q1/Q2)
- Tidak punya akses Scopus

Padahal, dengan cara yang tepat, Anda bisa:

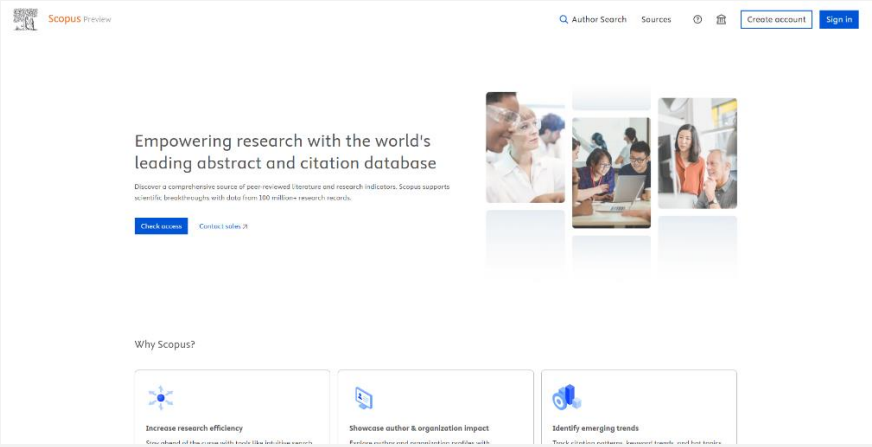

✅ Menemukan referensi berkualitas dalam hitungan menit
✅ Menghemat waktu riset berjam-jam
✅ Mendapatkan paper yang benar-benar relevan

Di eBook ini, Anda akan belajar:

🔐 Cara login akun Scopus
🔍 Cara mencari referensi yang tepat
🎯 Cara memilih paper terbaik (bukan asal download)

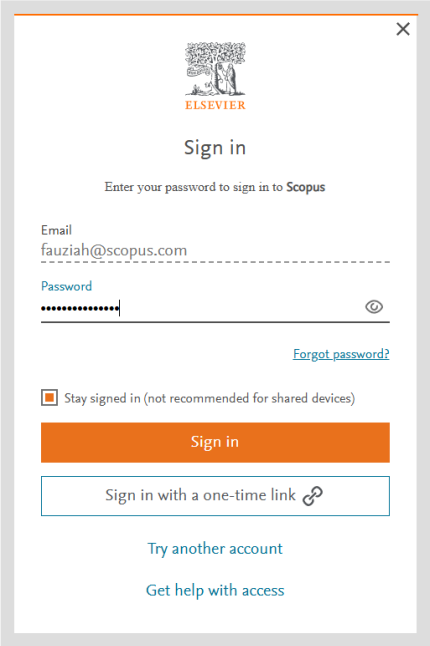

Langkah-langkah:

1. Buka website:
   👉 https://www.scopus.com
2. Klik tombol **“Sign In”** (pojok kanan atas)

3. Masukkan:

- Username
- Password

4. Klik **Sign In**

⚠ **Tips Penting:**

- Gunakan akun sesuai perangkat (hindari login banyak device bersamaan)
- Jangan share akun ke orang lain
- Gunakan browser yang stabil (Chrome / Edge)

Ini bagian paling penting.

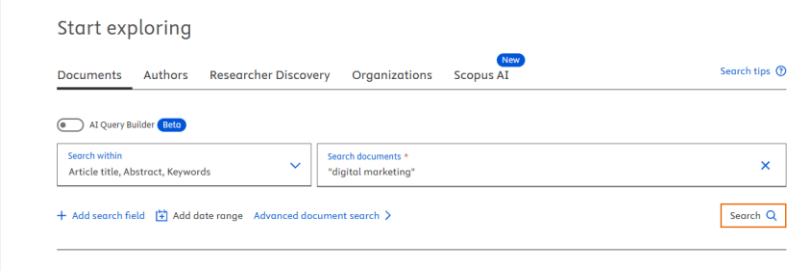

Banyak orang salah di sini.

STEP 1 Masukkan Keyword

Contoh:

“digital marketing”

👉 Jangan terlalu panjang
👉 Gunakan kata inti dulu
👉 Jika lebih dari satu kata gunakan “ “

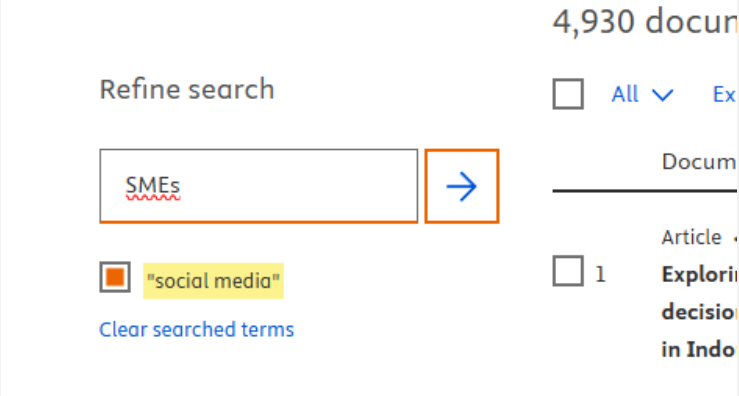

STEP 2 Persempit dengan “Refine”

Gunakan kombinasi:

"social media" AND SMEs

📌 Gunakan tanda petik " " untuk kata spesifik
📌 Gunakan AND untuk menggabungkan

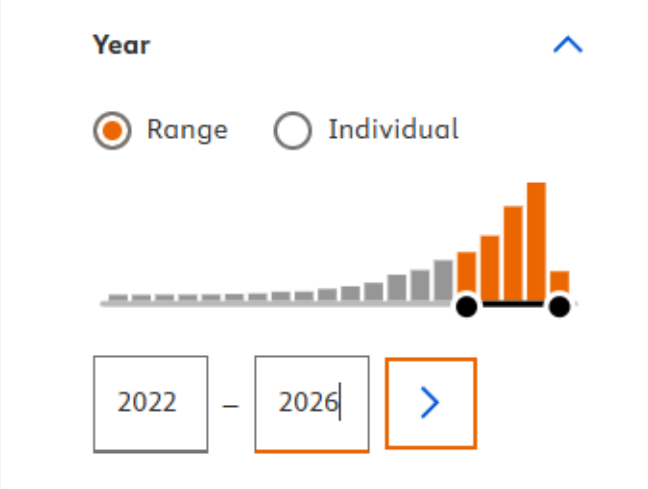

STEP 3 Filter Hasil (WAJIB)

Ini yang bikin hasil jadi “BERKUALITAS”

Gunakan filter berikut:

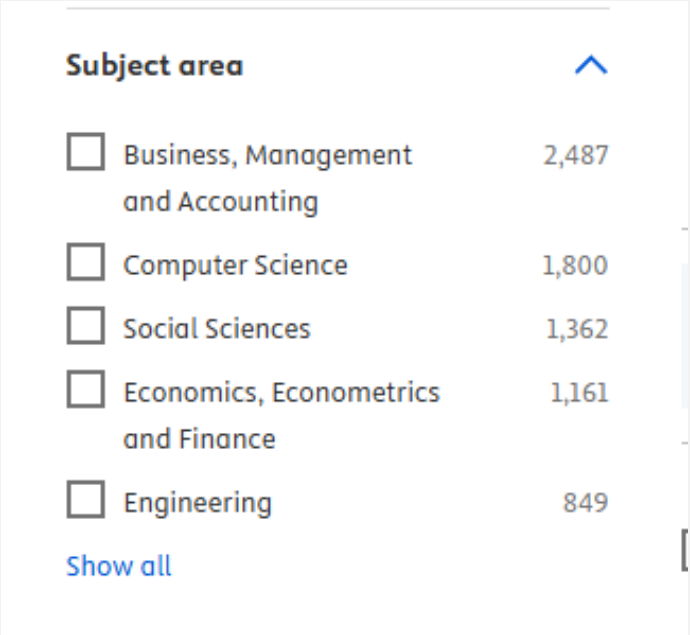

✅ Tahun

➡️ 5 tahun terakhir

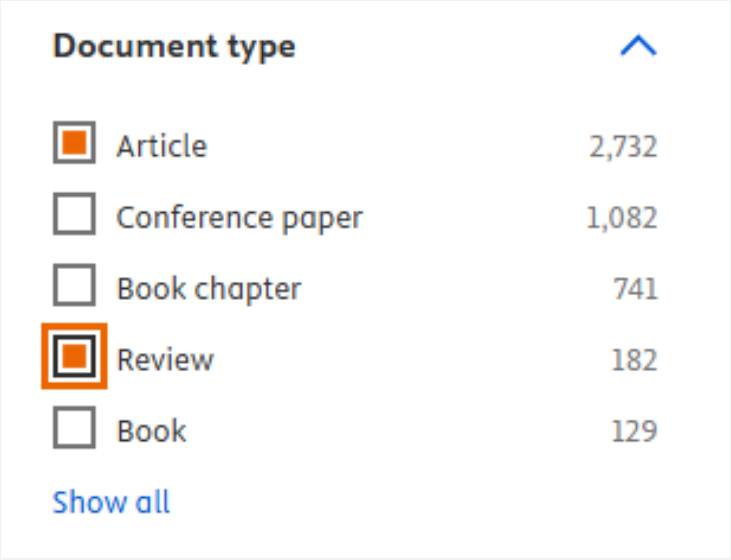

✅ Subject Area (opsional)

➡️ Sesuai bidang Anda

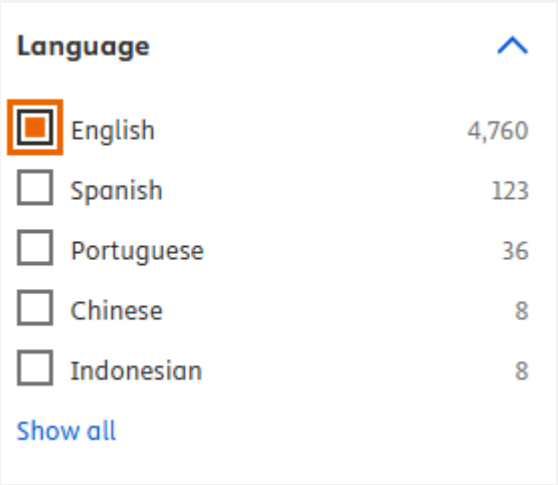

Document Type

Article
Review

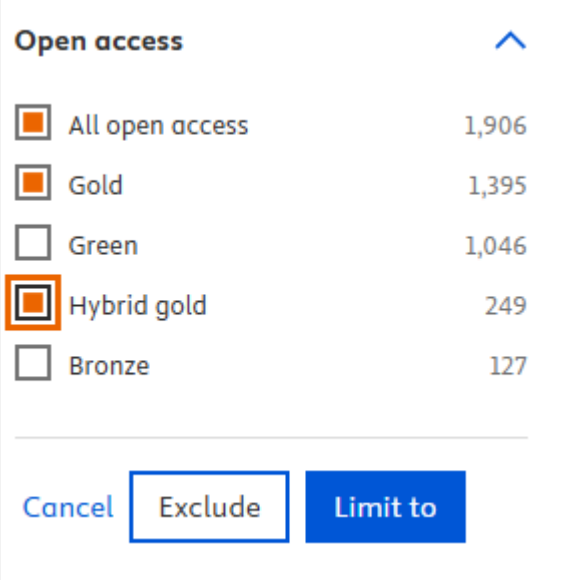

✅ Language

→ English

✅ Open Access

→ All Open Access
→ Gold
→ Hybrid Gold

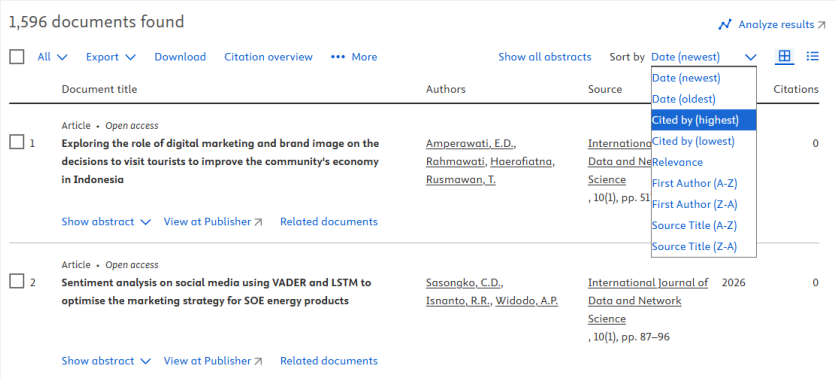

Terakhir klik **“Limit to”**

Setelah difilter, jangan langsung download.

Gunakan teknik ini:

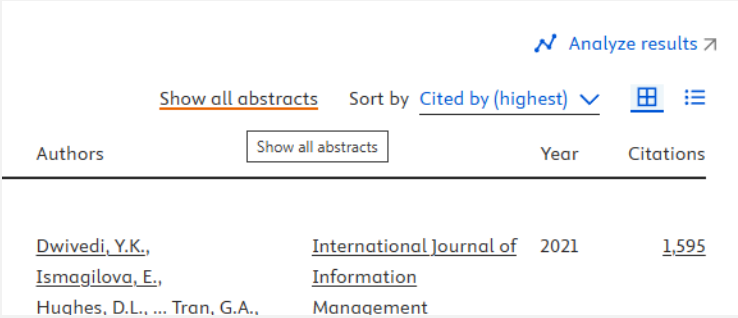

STEP 1 — Sort by “Cited by (Highest)”

➡️ Artinya:
Paper paling sering dikutip = paling berpengaruh

STEP 2 — Klik “Show All Abstract”

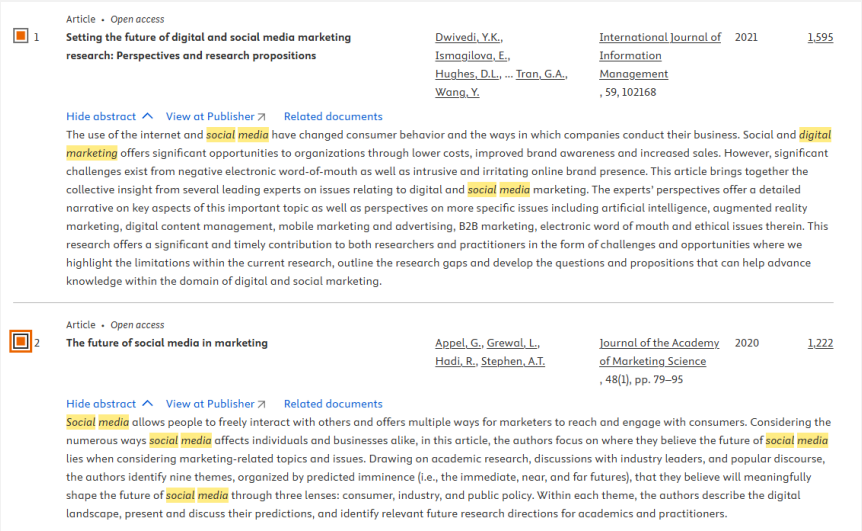

➡️ Baca ringkasan dulu
➡️ Jangan asal download

STEP 3 — Cek Highlight Kuning

Scopus akan menandai keyword Anda

👉 Kalau ada highlight = relevan
👉 Kalau tidak ada = skip

The use of the internet and *social media* have changed consumer behavior and the ways in which companies conduct their business. Social and *digital marketing* offers significant opportunities to organizations through lower costs, improved brand awareness and increased sales. However, significant challenges exist from negative electronic word-of-mouth as well as intrusive and irritating online brand presence. This article brings together the collective insight from several leading experts on issues relating to digital and *social media* marketing. The experts' perspectives offer a detailed narrative on key aspects of this important topic as well as perspectives on more specific issues including artificial intelligence, augmented reality marketing, digital content management, mobile marketing and advertising, B2B marketing, electronic word of mouth and ethical issues therein. This research offers a significant and timely contribution to both researchers and practitioners in the form of challenges and opportunities where we highlight the limitations within the current research, outline the research gaps and develop the questions and propositions that can help advance knowledge within the domain of digital and social marketing.

Social media allows people to freely interact with others and offers multiple ways for marketers to reach and engage with consumers. Considering the numerous ways *social media* affects individuals and businesses alike, in this article, the authors focus on where they believe the future of *social media* lies when considering marketing-related topics and issues. Drawing on academic research, discussions with industry leaders, and popular discourse, the authors identify nine themes, organized by predicted imminence (i.e., the immediate, near, and far futures), that they believe will meaningfully shape the future of *social media* through three lenses: consumer, industry, and public policy. Within each theme, the authors describe the digital landscape, present and discuss their predictions, and identify relevant future research directions for academics and practitioners.

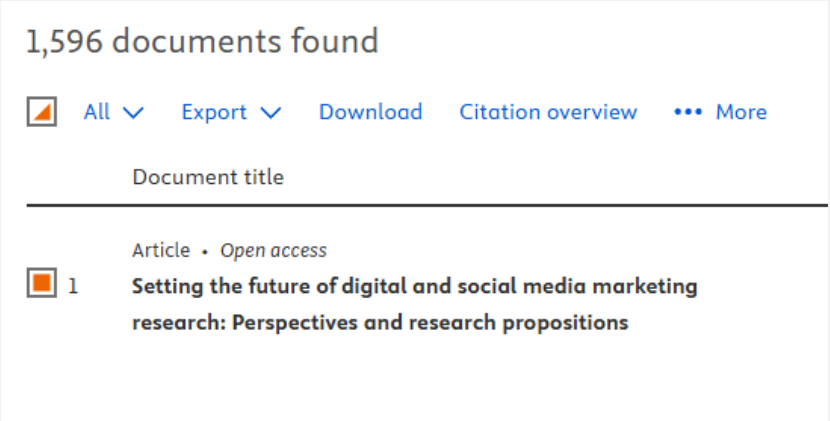

STEP 4 — Pilih yang Paling Sesuai

Checklist:

✓ Keyword muncul di abstract
✓ Topik sesuai penelitian
✓ Banyak sitasi

STEP 5 — Download Paper

→ Centang beberapa paper
→ Klik download

⚡ STRATEGI CEPAT (Rahasia Peneliti Produktif)

Gunakan pola ini:

1. Cari 1 keyword utama
2. Filter dengan benar
3. Ambil 5–10 paper terbaik
4. Gunakan referensi dari paper tersebut

👉 Ini bisa jadi 20–50 referensi sekaligus

🚀 BONUS: Cara Biar Cepat Lolos Scopus

Banyak orang gagal bukan karena tidak bisa menulis, tapi karena:

❌ Salah referensi
❌ Referensi tidak kuat
❌ Tidak update

Dengan Scopus:

✅ Referensi lebih kredibel
✅ Lebih mudah diterima jurnal
✅ Penelitian lebih tajam

🔥 PENUTUP

Sekarang Anda sudah tahu:

✓ Cara login Scopus
✓ Cara mencari referensi yang tepat
✓ Cara memilih paper berkualitas

Tinggal satu hal:

👉 Eksekusi
